

Master Syllabus

DEH 2508 - Clinical Dental Hygiene II

Division: Health Sciences

Department: Dental Health Sciences

Credit Hour Total: 2.0

Lecture Hrs: 2.0

Prerequisite(s): DEH 2402

Other Prerequisite(s): AND Restricted to Majors

Date Revised: October 2012

Course Description:

A continuation of the dental hygiene process of care, powered instrumentation, child abuse and neglect, risk assessment, medically compromised and special needs patient care, periodontal maintenance, adjunctive therapies, periodontal surgical concepts, dental implant maintenance and periodontal emergencies.

General Education Outcomes:

- ▣ Critical Thinking/Problem Solving
- ▣ Information Literacy
- ▣ Values/Citizenship/Community
- ▣ Computer Literacy

Course Outcomes:

Medically Compromised and Special Needs Patient Care

Describe the dental hygiene process of care, including modifications, as related to patients with various medical conditions and special needs.

Assessment Method: Locally developed exams
Performance Criteria: 80% or higher on exam

Dental Implant Maintenance

Describe considerations for implant maintenance as part of comprehensive dental hygiene care.

Assessment Method: Locally developed exams
Performance Criteria: 80% or higher on exam

Periodontal Emergencies

Outline causes and treatment for various periodontal emergencies.

Assessment Method: Locally developed exams
Performance Criteria: 80% or higher on exam

Powered Instrumentation

Describe the indications and techniques for the use of powered instrumentation in preventive and therapeutic dental hygiene care.

Assessment Method: Locally developed exams
Performance Criteria: 80% or higher on exam

Child Abuse and Neglect

Relate the role and responsibilities of the dental hygienist regarding child abuse and neglect.

Assessment Method: Locally developed exams
Performance Criteria: 80% or higher on exam

Risk Assessment

Describe the components of risk assessment in the process of dental hygiene care.

Assessment Method: Locally developed exams
Performance Criteria: 80% or higher on exam

Periodontal Maintenance

Describe the objectives and procedures related to periodontal maintenance.

Assessment Method: Locally developed exams
Performance Criteria: 80% or higher on exam

Adjunctive Therapies

Describe the indications and rationale for the use of various adjunctive therapies in preventive and therapeutic dental hygiene care.

Assessment Method: Locally developed exams
Performance Criteria: 80% or higher on exam

Periodontal Surgical Concepts

Describe the indications and contraindications for various types of periodontal surgery.

Assessment Method: Locally developed exams
Performance Criteria: 80% or higher on exam

Outline:

Powered instrumentation
Child abuse and neglect
Risk assessment
Medically compromised and special needs patient care
Periodontal maintenance
Adjunctive therapies
Periodontal surgical concepts
Dental implant maintenance
Periodontal emergencies
