80% or higher on CES/CAM evaluation criteria and/or rubric.

Periodontal Care Planning

Develop periodontal care plans for the implementation of non-surgical periodontal therapy based on patient assessment data and current standards of care.

Assessment Method: Performance appraisals

Performance Criteria:

80% or higher on CES/CAM criteria

Non-Surgical Periodontal Therapy

Demonstrate the principles of non-surgical periodontal therapy in the treatment of a variety of periodontal diseases.

Assessment Method: Performance appraisals

Performance Criteria:

80% or higher on CES/CAM criteria

Periodontal Maintenance

Evaluate patient periodontal status in determining appropriate educational directives and therapeutic procedures for periodontal maintenance.

Assessment Method: Performance appraisals

Performance Criteria:

80% or higher on CES/CAM criteria

Medically Compromised and Special Needs Patient Care

Demonstrate the ability to apply the dental hygiene process of care to medically compromised and special needs patients.

Assessment Method: Performance appraisals

Performance Criteria:

80% or higher on CES/CAM criteria

Individualized Patient Education

Develop patient self-care recommendations and instruction based on individual patient oral health status, preferences, and abilities.

Assessment Method: Performance appraisals

Performance Criteria:

80% or higher on CES/CAM criteria

Case Presentation

Demonstrate the ability to organize and present patient assessment findings and treatment outcomes utilizing professional communication skills with peers and faculty.

Assessment Method: Oral examination

Performance Criteria:

80% or higher on faculty developed rubric

Verbal and Non-Verbal Communication Skills

Use effective verbal and non-verbal skills to deliver appropriate messages effectively in the clinical setting.

Assessment Method: Performance appraisals

Performance Criteria:

80% or better on CES/CAM evaluation criteria.

Outline:

Powered instrumentation

Periodontal care planning

Non-surgical periodontal therapy

Periodontal maintenance

Medically compromised and special needs patient care

Individualized patient education

Case presentation
