

Master Syllabus

EFD 1302 - Expanded Functions for Dental Auxiliaries II

Division: Health Sciences

Department: Dental Health Sciences

Credit Hour Total: 6.0

Lecture Hrs: 3.0 **Lab Hrs:** 4.0

Prerequisite(s): EFD 1202

Other Prerequisite(s): AND Restricted to Majors

Date Revised: October 2013

Course Description:

This course is the third in a three-part series for the Expanded Functions Dental Auxiliary Program. Greater emphasis on topics covered in EFD 1202 is examined. Detailed concepts with regards to amalgam, esthetic and preventive resins are discussed. Concepts involving Class IV resin restorations and dental sealants are introduced. Mock boards are included. Three classroom, four lab hours per week, plus ten hours of co-op experience per week in a dental office.

General Education Outcomes:

- Critical Thinking/Problem Solving Competency
- Values/Citizenship/Community Competency
- Oral Communication Competency

Course Outcomes:

Professional Philosophy

Develop a professional philosophy for EFDA practice incorporating a commitment to lifelong learning and continuing education and apply the rules of the Ohio Administrative Code and OSHA as they apply in the dental setting.

Assessment Method: Locally developed exams

Performance Criteria: 75% or higher achieved

Cooperative Work Experience

Demonstrate practical application of the dental skills and principles described in an approved dental office/clinical site under the direct supervision of a dentist, and in accordance with the affiliation agreement between the affiliate and Sinclair Community College.

Assessment Method: Behavioral observations

Performance Criteria: 75% or above

Esthetic Restorative Material/Anterior Restorations

Discuss the techniques for the placement of Class IV composite restorations in the preclinical and clinical environment.

Assessment Method: Locally developed exams

Performance Criteria: 75% or higher achieved

Advanced Restorative Intraoral and Extraoral Procedures

Demonstrate knowledge, skills and behavior in all restorative procedures and techniques involved in the placement of metallic and composite resin restorations for Class I, II, III, IV, V restorations.

Assessment Method: Locally developed exams

Performance Criteria: 75% or higher achieved

Mock Board Preparation

Assess and evaluate restorative care as it applies to restorations in congruence with the Commission on Dental Testing in Ohio, and display didactic knowledge required for the written portion of the exam.

Assessment Method: Locally developed exams

Performance Criteria: 75% or higher achieved

Dental Sealants

Discuss the indications for use of dental sealants, types of sealant material, techniques used in application of sealants, and the reason for sealant failure.

Assessment Method: Locally developed exams

Performance Criteria: 75% or higher achieved

Outline:

Esthetic Restorative Material/Class IV Restorations
Competency in Advanced Restorative Intraoral and Extraoral Procedures
Dental Sealants
Mock Board Preparation
Professional Philosophy
