

Master Syllabus

MAN 1157 - Management Applications of Radio Frequency Identification Technology

Division: Business and Public Services

Department: Management

Credit Hour Total: 2.0

Lecture Hrs: 2.0

Prerequisite(s): MAN 1106

Date Revised: September 2013

Course Description:

This course will introduce students to the management applications of Radio Frequency Identification (RFID) technology, which enables automated gathering and sending of asset information. Case studies and hands-on activities will allow students the opportunity to experience RFID from a business perspective, linking cost, price, customer satisfaction and product performance measures to business application outcomes.

General Education Outcomes:

- ❑ Oral Communication Competency
- ❑ Critical Thinking/Problem Solving Competency
- ❑ Values/Citizenship/Community Competency
- ❑ Information Literacy Competency
- ❑ Written Communication Competency
- ❑ Computer Literacy Competency

Course Outcomes:

Radio Frequency Identification (RFID) Technology

Apply RFID technology to a variety of applications, including supply chain, health care and government.

Assessment Method: Locally developed exams

Performance Criteria: Achieve a minimum grade of 70% or higher

Assessment Method: Simulations

Performance Criteria: Achieve a minimum grade of 70% or higher based on departmental rubrics

Cost Structure of Radio Frequency Identification (RFID)

Determine the Return on Investment (ROI) of RFID applications and provide rationale to build a business case for application and use.

Assessment Method: Locally developed exams

Performance Criteria: Achieve a minimum grade of 70% or higher

Assessment Method: Simulations

Performance Criteria: Achieve a minimum grade of 70% or higher based on departmental rubrics

Radio Frequency Identification (RFID) Implementation

Determine the appropriate vendor sourcing and selection criteria and apply this reasoning in case study analysis.

Assessment Method: Locally developed exams

Performance Criteria: Achieve a minimum grade of 70% or higher

Assessment Method: Simulations

Performance Criteria: Achieve a minimum grade of 70% or higher based on departmental rubrics

Outline:

Radio Frequency Identification (RFID) and the Supply Chain

Return on Investment for RFID application

RFID Vendor Selection

Security

Ethical/Privacy Issues

RFID Regulations and EPC Global Standards

RFID Applications
