

Master Syllabus

OTA 1101 - Introduction to Occupational Therapy Assistant

Division: Health Sciences

Department: Rehabilitation Services

Credit Hour Total: 2.0

Lecture Hrs: 1.0 **Lab Hrs:** 2.0

Date Revised: October 2012

Course Description:

History, philosophy, ethics and definitions of occupational therapy; overview of occupational therapy practice areas; differences between occupational therapists and occupational therapy assistants; functions of professional and regulatory agencies; exploration of learning experiences within the OTA curriculum. One classroom, two lab hours per week.

General Education Outcomes:

- Critical Thinking/Problem Solving Competency
- Values/Citizenship/Community Competency
- Written Communication Competency
- Oral Communication Competency

Course Outcomes:

Evaluate Career Choice

Demonstrate the ability to evaluate the field of occupational therapy as an appropriate career choice.

Assessment Method: Written surveys and/or questionnaires

Performance Criteria: The student will complete a reflective survey about the field of occupational therapy as a career choice at a "meets" level on the assignment rubric.

History and Philosophy

Articulate an understanding of the importance of the history and philosophical base of the profession of occupational therapy.

Assessment Method: Focus groups

Performance Criteria: The student will actively participate in small group discussions on the importance of the history and philosophical base of occupational therapy at a "meets" level on the assignment rubric.

Knowledge of OT/OTA Roles

Demonstrate the ability to identify and explain the need for supervisory roles, responsibilities, and collaborative professional relationships between the occupational therapist and the occupational therapy assistant.

Assessment Method: Locally developed exams

Performance Criteria: Student will pass a written examination with a minimum score of 79%.

Career Options for OTAs

Demonstrate the ability to identify and compare the varied roles of the occupational therapy assistant as a practitioner, educator, and research assistant.

Assessment Method: Performance appraisals

Performance Criteria: Students will present information about occupational therapy practice areas and career options at a "meets" level on the assignment rubric.

Knowledge of Key Documents

Demonstrate a knowledge and understanding of the American Occupational Therapy Association (AOTA) Code of Ethics, Core Values and Attitudes of Occupational Therapy, and AOTA Standards of Practice and use them as a guide for ethical decision making in professional interactions, client treatment, and employment settings.

Assessment Method: Focus groups

Performance Criteria: The student will actively participate in small group discussions and comparisons of key occupational therapy documents at a "meets" level on the assignment rubric.
